

Montcalm East EarthCheck Sustainability Policy

Montcalm East is committed to achieving best practice environmental and social sustainability and has partnered with EarthCheck as a benchmarking and certification provider.

Montcalm East is a luxury city hotel located in an urban environment in Shoreditch, London. The hotel consists of 20 floors with 288 hotel rooms, 4 function rooms with 200 seat total capacity, a gym, and spa facilities with pool. The hotel also houses a third party operated restaurant and spa treatment rooms, who share our sustainability values but are not included in the scope of our operations.

At Montcalm East, we recognise the activities of our Hotel have the potential for negative impacts on the environment and community if not properly managed. As such we have implemented a Sustainability Management System that meets the requirements of the EarthCheck Company Standard.

We are committed to continual improvement measured by way of annual Benchmarking Assessments. We are committed to minimising our footprint on the environment by implementing sustainable initiatives aimed at improving the hotel's performance, reducing the use of energy and water, reducing the production of waste, and protecting the environment.

Montcalm East will comply with all relevant legislation and regulations, and aims to achieve international best practice. We have appointed a Sustainability Manager and EarthCheck Coordinator, who has responsibility for improving the Hotel's sustainable performance.

We are committed to meeting and safeguarding the needs of our local community, including, where possible, supporting non-profits, employing and empowering local employees, and sourcing local sustainable products and services in accordance with fair trade principles.

We encourage our team to present our commitment to environmental and social sustainability to all key stakeholders including guests, suppliers and contractors.
