

A fternoon Tea

Step into our enchanted garden, where nature whispers gently into every detail, and tradition and artistry dance hand-in-hand.

Our Afternoon Tea is inspired by the legacy of Constance Spry, a revolutionary florist and culinary pioneer who weaved together food and flowers to create magical moments, transforming British dining with her unparalleled curiosity. Honouring her vision, our menu draws on her iconic recipes and creative philosophy, reimagined for the modern age with seasonal botanicals and garden-inspired flavours.

Afternoon Tea at Montcalm Mayfair is more than a tradition, it's the gateway to a garden where inspiration, heritage, and enchantment unite as one to excite your tastebuds and imagination.

As you explore our collaboration with the acclaimed musical 'Into the Woods', you'll find that traditional Afternoon Tea has been reimagined in an experience unique yet familiar. Through a lens of enchantment, where colours and textures become infused with fairy-tale magic, each dish is a nod to the musical's woodland charm.

"Every sip, every bite, every glance is a step into the woods"
